40120

The Red Sea MAX 130D has been developed following the experience and customer feedback gained since the launch of the original Max 130.

Designed with performance and ease of use in mind, the Max 130D contains a number of upgrades and enhanced features designed to make reef-keeping even easier than ever before.

40130

The MAX 250 is the ultimate 250 liter / 66 gallon Plug & Play Coral Reef System. Featuring a host of high performance features, the MAX 250 makes it possible to keep even the most demanding sps coral species, and provides a complete coral reef aquarium solution. Full Coral Reef Spec lighting, filtration & circulation are all housed in a beautiful aquarium, which also includes the MAX control system providing total control and a one pug solution. The MAX 250 gives aquarists an opportunity to achieve the dream of owning a complete coral reef in their own home.

50055

The Berlin X2 is the latest evolution of the popular Berlin range of skimmers, used by thousands of satisfied aquarists around the world since 1993. The X2 offers a 50% increase in skimming performance over the old model, while preserving its predecessor's small footprint and compact dimensions.

50202

Red Sea C-Skim 1800 represents an integration of revolutionary features, performance characteristics of high demand commercial foam fractionators and the footprint and affordability of a modernly designed hobby protein skimmer. The C-Skim provides a new level of protein skimming in terms of efficiency, performances and user friendliness. The C-Skim features include a Peripheral Flow Closed Loop Skim Chamber providing improved water/air flow dynamics, a unique integrated Neck Washing system which increases long term skimming performances and the FoamView™ enabling easy adjustment of the skimming foam production
